No Means No Interview by Steve K. (Turmoil Radio Show)NY/St.
Brook/NY

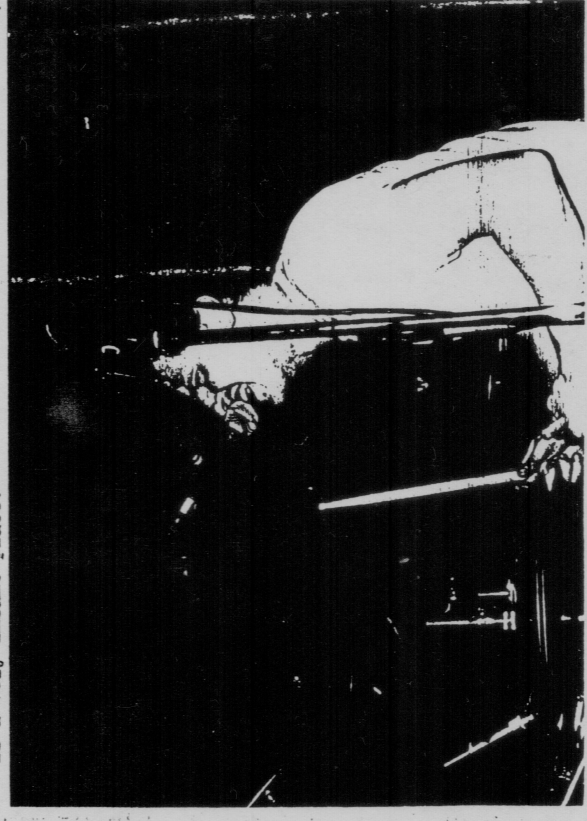

D4: Is this your first American show on this tour?
Rob/No, we came all the way across the country from California, and the West Coast, we've been here 4 days ago, 16 one-nigh-tes in a row from Salt Lake City to Richmond, Virginia.

D4: How's the tour going so far?

Rob/Pretty good. We're having a good time with D.O.A. It's a real enjoyable thing to tour with them, they're a good people and they've helped us a lot before. And they are like the originators of punk rock on the West Coast, certainly from where we come. They're the people who started the whole thing, for me and John both. These were the kind of people we're listening to when we were getting into music, and were on of the things that inspired us to get into music. So it's really been for it's really been a good experience.

D4: Any disappointments about America?

Andy/ We've never disappointed about America. Freaked out perha-ps: It's like this great pile of garbage and shit, in which there are occasional diamonds on it, but the rest of it is a very insane place.

D4: What would you advice to an foreign band when playing in England-to play faster or slower/or it does depend from a place to place...

DW/I don't think bands should change their styles for other people: they should just be themselves. The only advice I'd give to bands coming to the UK is to be sure that their tour is organised properly, that they're GUARANTEED expences, and not expect too much...

...England's a great place but the punk/HC scene is going through a bad patch at the moment:
D4: Tell us more about your upcoming record, and how much it will cost (not the final copy but get it recorded, mixed, postage, get it advertised...etc.etc.)?

DW/Our next record will be an L.P. There will be 10 songs on there, and it'll last about 40 minutes. Some of the songs' titles are: 'Ruins', 'Self Respect', 'This Lunacy', 'Backbiter', 'Component', 'War Is Here and Now', 'I dream.../etc. It'll probably come out on Peaceville in late Autumn, and it will cost about 1000.00 to record. Thanks a lot, George, for taking an interest in DECADENCE WINTER!!
